

InAcoustics Quality Policy

The InAcoustics Quality Management System has been certified by APCER/IQ NET since 2007, fulfilling the requirements of the NP EN ISO 9001:2015 standard for the development of projects and Engineering studies in the fields of Acoustics and Vibrations.

Together with in-depth knowledge of the behaviour of sound and vibration, we provide quality assurance through this certification.

Our **Mission** is to guide our efforts to provide the highest quality Acoustic Engineering services, contributing to a healthy acoustic environment and the satisfaction of our clients.

Our **Vision** is to be a reference company in the field of Engineering Acoustics.

We commit ourselves to the following OBJECTIVES:

- **Continuous improvement** of our studies, projects and Quality Management System;
- Seek the **satisfaction of our clients**;
- Promote the **competence of our employees**;
- Contribute to the **recognition of Acoustics**.

The Management assures its support in the pursuit of these objectives and assumes the commitment to the satisfaction of the applicable requirements.
